

Sort correctly—food waste from businesses

Remember
to remove
packaging

YES

Bread, pasta,
rice

Vegetables, fruit
(max 10 kg
of fallen fruit)

Cooked
meat and
fish

Tea leaves, tea bags, coffee
grounds, coffee filters,
uncoloured kitchen paper

NO

- Large amounts of seafood/eggshell*
- Large bones*
- Flowers, herb/salad pots, soil
- Packaged food
- Bio plastic bags
- Rubbish and bin bags
- Butter packets
- Candles
- Dishcloths
- Ice cream/chop/BBQ sticks
- String, gloves
- Serviettes with print/colour
- Smokeless tobacco, cigarettes, ash
- Wine corks, capsules

*Large bones do not decay. Large amounts of seafood/eggshells stop the decay process

- The paper bags supplied must be placed in the waste bin. The bin must be washed out and cleaned on a regular basis.
- Don't fill the bin to the top, leave at least 25 cm free from the top. Bins must not weigh more than 60 kg.
- Keep bins cool and place them well into the room in order to avoid rubbish other than food waste being put in them.
- Bins with incorrectly sorted food waste will not be collected. Transfer incorrectly sorted waste to ordinary waste collection or order an extra collection of household waste.
- Any questions? Read more on www.svoa.se or contact us on telephone 08 522 120 00 or email kund@svoa.se

Together we achieve the world's
most sustainable city
